EXPERIENCE

INTERNSHIP · JULY, 2024 – SEP, 2024
Pakistan Ordnance Factories, Wah Cantt, Pakistan

- Developed and optimized responsive websites for clients, ensuring seamless user experience and high performance across devices
- Utilized tools and developed strategies to analyze website performance and implement strategies for increased organic traffic

Full-Stack Developer · OCT, 2022 – PRESENT
Self-Employed / Freelance — *Remote*

- Built dynamic full-stack applications using the MERN stack
- Developed and deployed RESTful APIs with third-party integrations
- Created responsive UIs with React and seamless backend connectivity
- Managed data with MongoDB/PostgreSQL for high-performance apps
- Utilized Git and GitHub for version control, and deployed projects on platforms like AWS

PROJECTS

PDF_WHISPER | *React, Node.js, Express, MongoDB, OpenAI API* · SEP 2024 – JUN 2025

- Developing an AI-powered web application that allows users to upload PDF documents and interact with them using a chat-based interface
- Integrated the OpenAI API to generate question-answer responses and summaries based on PDF content
- Built core modules including user authentication, PDF upload and processing, AI-driven Q&A, and summarization features
- Using MongoDB to manage user data and uploaded documents for secure and efficient storage
- Designed a user-friendly dashboard for document management and chat history
- Planning optional admin panel for managing users and PDFs
- Deployed on Vercel for web hosting and used Git for version control throughout development
